

MAXITPMS

COMPREHENSIVE TPMS SERVICE TOOLS

Do you already own an Autel TPMS tool? Download FREE software updates for all your Autel TPMS tools and your outdated tool will function like new! Autel.com updates provide the latest TPMS diagnostic coverage, OE learning procedures and the ability to clone and program Autel MX-Sensors. The full line of MaxiTPMS tools is specially designed to activate any known OEM / Universal TPMS sensors, reprogram the Autel MX-Sensors to the vehicle's ECU, and turn off the TPMS warning light. Tool software can be regularly updated for current vehicle coverage.

EASY TO USE SOFTWARE

Multiple new features were designed and released for all three levels of Autel TPMS tools, making your diagnostic service easier to navigate. The TS401 software can now program and relearn Autel MX-Sensors making this tool an industry leader for value performance. The TS501 and TS601 updated TPMS status screen now easily shows if the sensor battery needs to be replaced soon. All three tools provide a quick access to the faulty sensors and deliver a TPMS diagnosis to help complete the service more effectively and efficiently.

TPMS PACKAGE KIT

The TS501K package kit is a perfect All-In-One TPMS solution, combining the TS501 tool with eight Autel MX-Sensors for total TPMS service repair. An assortment of 6 metal stem and 2 rubber stem MX-Sensors are included to insure you have all you need in hand to replace 98 percent of all OE sensors. The TS501K offers the technician a complete solution to vehicle TPMS diagnostics, relearn and sensor programming.

AUTEL[®] MaxiTPMS[™]

FEATURES COMPARISON CHART

MOST POWERFUL TPMS DIAGNOSTIC & SERVICE TOOL

MAXITPMS - TS601

- INCLUDES SAME TS501 FEATURES PLUS
- COMPLETE TPMS SYSTEM DIAGNOSTICS
- LIVE TPMS DATA STREAM
- ADJUST TIRE SIZE PLACARD VALUES
- GENERIC OBD II POWERTRAIN TESTING

OBDII CONNECTOR FOR TPMS DIAGNOSTICS

MAXITPMS - TS501K

PACKAGED AS KIT WITH 8 SENSORS
6 METAL STEM / 2 RUBBER STEM

- INCLUDES SAME TS401 FEATURES PLUS
- OBD II INTERFACE TO EXTRACT TPMS CODES
- DETECT & DISPLAY TPMS SYSTEM FAULTS
- READ & CLEAR TPMS INFORMATION

OBDII CONNECTOR FOR TPMS DIAGNOSTICS

MAXITPMS - TS401

- ACTIVATE SENSORS & RETRIEVE DATA
- DISPLAY RELEARN PROCEDURES
- STEP BY STEP GRAPHIC DIRECTIONS FOR OE RELEARN PROCEDURES
- AUTEL MX-SENSOR PROGRAMMING
- UPDATEABLE SOFTWARE

MS906TS

AFFORDABLE SCAN TABLET + TPMS DIAGNOSTICS

NEXT GENERATION TPMS

WHY BUY A SECONDARY TPMS TOOL?

TPMS EVOLUTION

The MaxiSYS MS906TS is an ALL-IN-ONE industry first combining advanced diagnostics with complete TPMS functionality. Now technicians don't need multiple devices to trigger, program, or relearn Autel MX-Sensors with one ultra-fast, lightweight, wireless, touch screen scan tablet.

EMBEDDED TPMS ANTENNA

Combining next generation hardware with powerful software for the price conscious technician that requires advanced level diagnostics to scan all vehicle systems and quickly perform complete TPMS diagnostics.

MX-SENSORS

PROGRAMMABLE UNIVERSAL TPMS SENSORS

Autel's MX-Sensors are programmable universal OE replacement TPMS sensors and only require two sensor types to cover all OE fitted sensor replacements with a programming tool. MX-Sensors offer the latest model TPMS coverage because sensors update during installation. This 4-SKU solution greatly reduces inventory investment and provides simple assembly to minimize installation time.

Covering 98% of All OE Sensors On Market US, European and Asian Manufacturers

Autel's MX-Sensor valves are tested independently and certified to meet and exceed the SAE industry standard J1205 / J1206 ratings. OE level signal durability and functionality insures customers are installing only the highest quality sensors.

TPMS DISPLAY

FREE MX-SENSOR INVENTORY DISPENSER

The Autel MX-Sensor POP Display is a plastic wall hanger and vertical TPMS sensor inventory dispenser that holds 11 sensors. The clear gravity-feed chute provides retail inventory visibility and organization to select from the bottom without dropping.

The display comes ready to use and easily restocked at the top divide for front and back display. There are two MX-Sensor display options available to order, each display comes with 6 metal stem and 5 rubber stem sensors. Installation instructions are included with each order.
